The Funds file their complete schedules of investments with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Funds' Form N-PORT reports are available on the SEC's website at <http://www.sec.gov>, and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to fund securities, as well as information relating to how the Fund voted proxies relating to fund securities during the most recent 12-month period ended June 30, is available (i) without charge, upon request, by calling 1- 866-392-2626; and (ii) on the SEC's website at <http://www.sec.gov>.

Dear Shareholders,

The ARGA Emerging Markets Value Fund (Fund) had a good year in a tough market environment that was 2022. The Fund declined 1.2% (net), compared to a 20.1% decline in the MSCI Emerging Markets Index and a 15.8% decrease in the MSCI Emerging Markets Value Index.

The Fund's performance reflects ARGA's core belief that fear and uncertainty create opportunity. As news accentuates if not proliferates global uncertainties, market reactions are increasingly immediate and dramatic. For value investors such as ARGA, news-led noise creates price anomalies that can be exploited for long-term gain. That exploitation requires understanding and managing the role of bias in investment decisions. Common investor biases include loss aversion, availability, recency and anchoring.

The Fund strategy seeks to remove bias from investment decisions through a disciplined approach based on valuation. The goal is to own highly undervalued businesses with long term upside potential. Industry and company research are paramount. Research differentiates business stress as temporary or permanent. It measures the degree of undervaluation. It forecasts a business' path to normalization and long-term earnings power.

Empirical research confirms that long-term value outperformance is largely due to exploitable pricing anomalies reflecting behavioral biases. Value investing works - just not all the time.

In 2022, the Fund showed how value investing plays out. Uncertainties were high stemming from multiple news-laden events: surging inflation, high interest rates, Russia's Ukraine invasion, supply chain disruptions, recession fears, and China's COVID lockdowns and property market concerns. Investor reactions, possibly overreactions, drove broad declines in emerging markets equities. Partial fourth quarter market recovery was led by China COVID policy easing and expectations for moderating inflation.

In this down environment, the Fund outperformed. Outperformance largely reflected recovery in valuations of businesses that others previously shunned. With the Fund's singular focus on long-term results, annual performance often varies from indices. What is consistent across periods and market environments is the Fund's strict adherence to ARGA's disciplined valuation approach.

Fund valuations rose across a broad range of sectors and geographies in 2022. Largest sector contributors were Financial Services and Consumer Discretionary. Examples of large valuation increases include:

- Banks & insurance holdings (Financial Services) - All 19 of the Fund's Financial Services holdings positively contributed to results across geographies (Brazil, China, Czech Republic, Hungary, India, Indonesia, Korea, Poland, South Africa, Thailand). While prior sector valuations had reflected the low rate environment and macro concerns, the 2022 period's high interest rates, benign credit, continued capital return and company-specific factors drove valuation recovery.
- Macau gaming holdings (Consumer Discretionary) - Two of the Fund's three Macau gaming holdings (Melco Resorts and Sands China) were among the Fund's top five company contributors. Sharp valuation recovery took place after China's license renewals and lifting of COVID restrictions.

- China holdings (Consumer Discretionary, Communication Services) - China's lifting of COVID restrictions sparked hopes for economic recovery, raising valuations of Chinese internet holdings and an online travel agency.

The Fund took advantage of share appreciation in these and other sectors to exit positions to fund more attractively valued opportunities. Many such investment opportunities arose during 2022. Market reactions and overreactions to geopolitics, recession fears, and other current events created many underpriced companies. ARGA research confirms strong value opportunities across sectors and geographies. Examples include:

- Travel - China's COVID policy reversal is expected to unleash a wave of travel related demand. Likely benefits may accrue to the Fund's aerospace, airline, lodging, gaming and other travel-related holdings, where strong business models are well positioned for normalization.
- Financial Services - Select banks and other Financial Services companies with leading, well-capitalized franchises and experience in navigating stress appear poised to emerge the current downturn competitively stronger.
- China - Chinese holdings with strong franchises and free cash flow are expected to benefit from reduced delisting probability and expected economic recovery from China's COVID policy reversal.

Emerging markets valuation spreads continue to exceed long term averages. Historically, wide spreads have signaled subsequent value outperformance. The Fund appears well positioned to benefit long term.

Thank you for investing with ARGA.

ARGA Portfolio Construction Team

The material represents the manager's assessment of the portfolio and market environment at a specific point in time and should not be relied upon by the reader as research or investment advice regarding any stock. Neither this material nor any accompanying oral presentation or remarks by a representative is intended to constitute a recommendation of the Fund or a determination of suitability.

Portfolio holdings are subject to change and should not be considered investment advice or a recommendation to buy securities.

Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. Past performance does not guarantee future results.

Dear Shareholders,

The ARGA International Value Fund (Fund) had a good year in a tough market environment that was 2022. The Fund declined 3.9% (net), compared to a 16% decline in the MSCI ACWI ex US Index and 8.6% decrease in the MSCI ACWI ex US Value Index.

The Fund's performance reflects ARGA's core belief that fear and uncertainty create opportunity. As news accentuates if not proliferates global uncertainties, market reactions are increasingly immediate and dramatic. For value investors such as ARGA, news-led noise creates price anomalies that can be exploited for long-term gain. That exploitation requires understanding and managing the role of bias in investment decisions. Common investor biases include loss aversion, availability, recency and anchoring.

The Fund strategy seeks to remove bias from investment decisions through a disciplined approach based on valuation. The goal is to own highly undervalued businesses with long term upside potential. Industry and company research are paramount. Research differentiates business stress as temporary or permanent. It measures the degree of undervaluation. It forecasts a business' path to normalization and long-term earnings power.

Empirical research confirms that long-term value outperformance is largely due to exploitable pricing anomalies reflecting behavioral biases. Value investing works - just not all the time.

In 2022, the Fund showed how value investing plays out. Uncertainties were high stemming from multiple news-laden events: surging inflation, high interest rates, Russia's Ukraine invasion, supply chain disruptions, recession fears, and China COVID lockdowns. Investor reactions, possibly overreactions, drove broad declines in international equity markets. Partial fourth quarter market recovery was led by China COVID policy easing and expectations for moderating inflation.

In this down environment, the Fund outperformed. Outperformance largely reflected recovery in valuations of businesses that others previously shunned. With the Fund's singular focus on long-term results, annual performance often varies from indices. What is consistent across periods and market environments is the Fund's strict adherence to ARGA's disciplined valuation approach.

Fund valuations rose across a broad range of sectors and geographies in 2022. Largest sector contributors were Consumer Discretionary, Energy and Materials. Examples of large valuation increases include:

- Macau gaming holdings (Consumer Discretionary) - Sands China and Melco Resorts were the top two company contributors to 2022 results. Sharp valuation recovery took place after China's license renewals and lifting of COVID restrictions.
- Oil & oil services holdings (Energy) - Three of the top ten company contributors to results were energy related. Valuations rose sharply on oil price rebound and recovery in industry capex.
- Mining, steel & cement holdings (Materials) - The largest sector contributor was Boliden, a Nordic-based mine/smelter of zinc, copper and lead. Shares rose on higher zinc prices and company cost advantage.

The Fund took advantage of share appreciation in these and other sectors to exit positions to fund more attractively valued opportunities. Many such investment opportunities arose during 2022. Market reactions and overreactions to geopolitics, recession fears, and other current

events created many underpriced companies. ARGA research confirms strong value opportunities across sectors and geographies. Examples include:

- Travel - China's COVID policy reversal is expected to unleash a wave of travel related demand. Likely benefits may accrue to the Fund's aerospace, airline, lodging, gaming and other travel-related holdings, where strong business models are well positioned for normalization.
- China - Chinese holdings with strong franchises and free cash flow are expected to benefit from reduced delisting probability and expected economic recovery from China's COVID policy reversal.
- Materials - Higher energy costs from the Russia/Ukraine war pressured valuations of chemical, steel and other energy-intensive materials companies. As energy prices slowly return to pre-invasion levels, select materials holdings should benefit.

International valuation spreads continue to exceed long term averages. Historically, wide spreads have signaled subsequent value outperformance. The Fund appears well positioned to benefit long term.

Thank you for investing with ARGA.

Definition of the Comparative Indices

MSCI Emerging Markets Index captures large and mid-cap representation across 25 Emerging Markets (EM) countries. With 1,422 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country.

MSCI Emerging Markets Value Index captures large and mid-cap securities exhibiting overall value style characteristics across 25 Emerging Markets (EM) countries. The value investment style characteristics for index construction are defined using three variables: book value to price, 12-month forward earnings to price and dividend yield.

MSCI ACWI ex U.S. Index captures large and mid-cap representation across 22 of 23 Developed Markets (DM) countries (excluding the US) and 25 Emerging Markets (EM) countries. With 2,336 constituents, the index covers approximately 85% of the global equity opportunity set outside the US.

MSCI ACWI ex U.S. Value Index captures large and mid-cap securities exhibiting overall value style characteristics across 22 Developed and 25 Emerging Markets countries. The value investment style characteristics for index construction are defined using three variables: book value to price, 12-month forward earnings to price and dividend yield.

Comparison of Change in the Value of a \$10,000 Investment in the ARGA Emerging Markets Value Fund, Institutional Class Shares, versus the MSCI Emerging Markets Index and MSCI Emerging Markets Value Index.

* The ARGA Emerging Markets Value Fund commenced operations on June 3, 2021.

Fee waivers were in effect previously, if they had not been in effect, performance would have been lower.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, may be worth less than its original cost.

The Fund's performance assumes the reinvestment of dividends and capital gains. Index returns assume reinvestment of dividends and, unlike a fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower.

Please note that one cannot invest directly in an unmanaged index.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change because it is actively managed and should not be considered recommendations to buy individual securities.

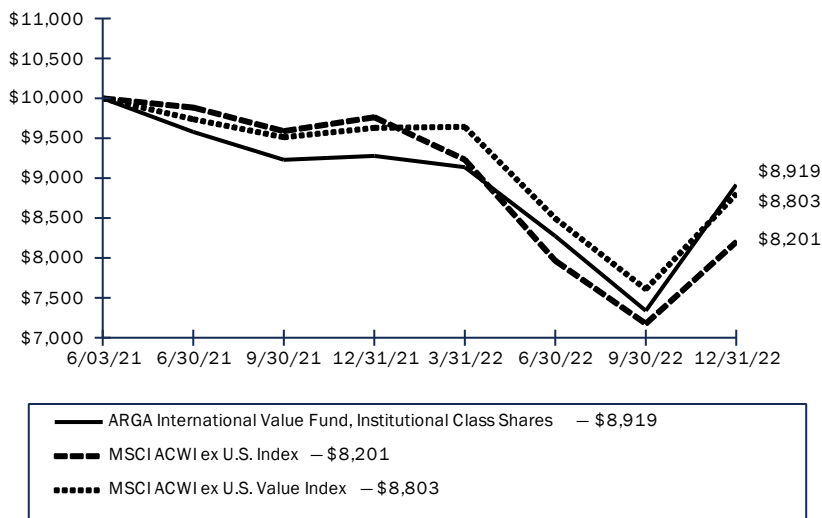

Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

See definition of comparative indices on page 5.

NOTES TO FINANCIAL STATEMENTS**1. Organization:**

The Advisors' Inner Circle Fund III (the "Trust") is organized as a Delaware statutory trust under a Declaration of Trust dated December 4, 2013. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with 65 funds. The financial statements herein are those of the ARGA Funds (the "Funds"). The investment objective of each of the ARGA Emerging Markets Value Fund (the "Emerging Markets Value Fund") and the ARGA International Value Fund (the "International Value Fund") is to seek to provide long-term capital appreciation. Each of the Emerging Markets Value Fund and the International Value Fund (collectively, the "Funds") is classified as a non-diversified investment company. ARGA Investment Management, LP (the "Adviser") serves as each Fund's investment adviser. Each Fund offers two classes of shares to investors, Investor Shares and Institutional Shares. The financial statements of the remaining funds of the Trust are presented separately. The assets of each Fund are segregated, and a shareholder's interest is limited to the Fund in which shares are held. Please refer to a current prospectus for additional information on each share class. Investor Shares of the Funds are currently not available for purchase.

2. Significant Accounting Policies:

The following are significant accounting policies, which are consistently followed in the preparation of the financial statements of the Funds. The Funds are an investment companies that apply the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board ("FASB").

Use of Estimates — The preparation of financial statements, in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and such differences could be material.

Security Valuation — Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on an exchange or market (foreign or domestic) on which they are traded or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ official closing price will be used. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Prices for most securities held in the Funds are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Funds seek to obtain a bid price from at least one independent broker.

Securities for which market prices are not "readily available" are required to be fair valued under the 1940 Act.

In December 2020, the SEC adopted Rule 2a-5 under the 1940 Act, establishing requirements to determine fair value in good faith for purposes of the 1940 Act. The rule permits fund boards to designate a fund's investment adviser to perform fair-value determinations, subject to board oversight and certain other conditions. The rule also defines when market quotations are "readily available" for purposes of the 1940 Act and requires a fund to fair value a portfolio investment when a market quotation is not readily available. The SEC also adopted new Rule 31a-4 under the 1940 Act, which sets forth recordkeeping requirements associated with fair-value determinations. The compliance date for Rule 2a-5 and Rule 31a-4 was September 8, 2022.

Effective September 8, 2022, and pursuant to the requirements of Rule 2a-5, the Trust's Board of Trustees (the "Board") designated the Adviser as the Board's valuation designee to perform fair-value determinations for the Funds through a Fair Value Committee (the "Committee") established by the Adviser and approved new Adviser Fair Value Procedures for the Funds. Prior to September 8, 2022, fair-value determinations were performed in accordance with the Trust's Fair Value Procedures established by the Board and were implemented through a Fair Value Committee designated by the Board.

Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include: the security's trading has been halted or suspended; the security has been delisted from a national exchange; the security's primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration relevant information reasonably available to the Committee.

In accordance with U.S. GAAP, the Funds disclose fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date;
- Level 2 – Other significant observable inputs (includes quoted prices for similar securities, interest rates, prepayment speeds, credit risk, referenced indices, quoted prices in inactive markets, adjusted quoted prices in active markets, adjusted quoted prices on foreign equity securities that were adjusted in accordance with the Adviser's pricing procedures, etc.); and

- Level 3 – Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Federal Income Taxes — It is the Funds' intention to qualify as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Internal Revenue Code of 1986, as amended. Accordingly, no provision for Federal income taxes has been made in the financial statements.

The Funds evaluate tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is "more-likely-than-not" (i.e., greater than 50-percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current period. The Funds did not record any tax provision in the current period. However, management's conclusions regarding tax positions taken may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (i.e., from commencement of operations, as applicable), on-going analysis of and changes to tax laws, regulations and interpretations thereof.

As of and during the year ended December 31, 2022, the Funds did not have a liability for any unrecognized tax benefits. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations. During the year, the Funds did not incur any interest or penalties.

Security Transactions and Investment Income — Security transactions are accounted for on trade date. Costs used in determining realized gains and losses on the sale of investment securities are based on the specific identification method. Dividend income and expense are recorded on the ex-dividend date. Dividend income is recorded net of unrecoverable withholding tax. Interest income is recognized on the accrual basis from settlement date. Certain dividends and expenses from foreign securities will be recorded as soon as the Funds are informed of the dividend if such information is obtained subsequent to the ex-dividend date.

Foreign Currency Translation — The books and records of the Funds are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency are translated into U.S. dollars on the date of valuation. The Funds do not isolate that portion of realized or unrealized gains and losses resulting from changes in the foreign exchange rate from fluctuations arising from changes in the market prices of the securities. These gains and losses are included in net realized and unrealized gains and losses on investments on the Statement of Operations. Net realized and unrealized gains and losses on foreign currency transactions represent net foreign exchange gains or losses from foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between trade and settlement dates on securities transactions and the difference between the amount of the investment income and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent amounts actually received or paid.

Classes — Class specific expenses are borne by that class of shares. Income, realized and unrealized gains (losses), and non-class specific expenses are allocated to the respective class on basis of relative daily net assets.

Cash — Idle cash may be swept into various time deposit accounts and is classified as cash on the Statements of Assets and Liabilities. The Funds maintain cash in bank deposit accounts which, at times may exceed United States federally insured limits. Amounts invested are available on the same business day.

Expenses — Most expenses of the Trust can be directly attributed to a particular fund. Expenses which cannot be directly attributed to a particular fund are apportioned among the funds of the Trust based on the number of funds and/or relative net assets.

Dividends and Distributions to Shareholders — Each Fund distributes its net investment income and makes distributions of its net realized capital gains, if any, at least annually. If you own Fund shares on a Fund's record date, you will be entitled to receive the distribution.

Redemption Fees — A redemption fee of 2.00% of the value of the shares sold will be imposed on shares redeemed within 60 days or less after their date of purchase.

Deferred Offering Costs — Offering costs, including costs of printing initial prospectus, legal and registration fees, are amortized over twelve-months from inception of the Fund. During the period ended December 31, 2022, the ARGA Emerging Markets Value Fund and ARGA International Value Fund amortized offering costs of \$24,839 and \$24,839, respectively. As of December 31, 2022, the ARGA Emerging Markets Value Fund and ARGA International Value Fund have no deferred offering costs remaining to be amortized.

3. Transactions with Affiliates:

Certain officers of the Trust are also employees of SEI Investments Global Funds Services (the "Administrator"), a wholly owned subsidiary of SEI Investments Company, and/or SEI Investments Distribution Co. (the "Distributor"). Such officers are paid no fees by the Trust, other than the Chief Compliance Officer ("CCO") as described below, for serving as officers of the Trust.

The services provided by the CCO and his staff are paid for by the Trust as incurred. The services include regulatory oversight of the Trust's Advisors and service providers as required by SEC regulations. The CCO's services and fees have been approved by and are reviewed by the Board.

4. Administration, Custodian and Transfer Agent Agreements:

The Funds and the Administrator are parties to an Administration Agreement under which the Administrator provides administration services to the Funds. For these services, the Administrator is paid an asset based fee, which will vary depending on the number of share classes and the average daily net assets of the Funds. For the year ended December 31, 2022, ARGA Emerging Markets Value Fund and ARGA International Value Fund each paid \$261,383 and \$74,971 for these services, respectively.

Brown Brothers Harriman & Co. acts as custodian (the "Custodian") for the Funds. The Custodian plays no role in determining the investment policies of the Funds or which securities are to be purchased or sold by the Funds. For the year ended December 31, 2022, the ARGA Emerging Markets Value Fund and ARGA International Value Fund each paid \$70,944 and \$8,016 for these services, respectively.

Atlantic Shareholder Services LLC serves as the transfer agent and dividend disbursing agent for the Funds under a transfer agency agreement with the Trust. For the year ended December 31, 2022, the ARGA Emerging Markets Value Fund and ARGA International Value Fund each paid \$36,133 and \$20,725 for these services, respectively.

5. Investment Advisory Agreement:

Under the terms of an investment advisory agreement, the Adviser provides investment advisory services to the ARGA Emerging Markets Value Fund and ARGA International Value Fund at a fee, which is calculated daily and paid monthly, at an annual rate of 0.70% and 0.60%, respectively of each Fund's average daily net assets.

For each Fund, the Adviser has contractually agreed to reduce its fees and/or reimburse expenses to the extent necessary to keep the Funds' total annual Fund operating expenses (excluding distribution and/or service (12b-1) fees, shareholder servicing fees, interest, taxes, brokerage commissions, and other costs and expenses relating to the securities that are purchased and sold by the Fund, dividend and interest expenses on securities sold short, acquired fund fees and expenses, fees and expenses incurred in connection with tax reclaim recovery services, other expenditures which are capitalized in accordance with generally accepted accounting principles, and non-routine expenses (collectively, "excluded expenses")) for Investor Shares and Institutional Shares from exceeding certain levels as set forth below until April 30, 2023. Refer to Waiver - Reimbursement from Adviser on the Statement of Operations for fees waived for the period ended December 31, 2022.

Accordingly, the contractual expense limitations for each Fund are as follows:

	Contractual Expense Limitations Institutional Shares
ARGA Emerging Markets Value Fund	0.90%
ARGA International Value Fund	0.75%

In addition, the Adviser may receive from a Fund the difference between the total annual Fund operating expenses (not including excluded expenses) and the Fund's contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the date of the recoupment if at any point total annual Fund operating expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This

agreement may be terminated: (i) by the Board, for any reason at any time; or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on April 30, 2023.

As of December 31, 2022, fees that were previously waived by the Adviser, which may be subject to possible future reimbursement to the Adviser are as follows:

Period	Subject to Repayment until December 31:	ARGA Emerging Markets Value Fund	ARGA International Value Fund
2021	2024	\$ 46,556	\$ 136,772
2022	2025	24,839	179,590
		\$ 71,395	\$ 316,362

For the period ended December 31, 2022, the Adviser recaptured fees previously waived in 2021 of \$105,071 for ARGA Emerging Markets Value Fund.

6. Investment Transactions:

For the year ended December 31, 2022, the purchases and sales of investment securities other than long-term U.S. Government and short-term investments, were as follows:

	Purchases	Sales
ARGA Emerging Markets Value Fund	\$ 370,444,538	\$ 118,043,235
ARGA International Value Fund	1,450,432	1,623,751

7. Federal Tax Information:

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain/(loss) on investment transactions for a reporting period may differ significantly from distributions during the year. The book/tax differences may be temporary or permanent. To the extent these differences are permanent in nature, they are charged or credited to undistributed net investment income (loss), accumulated net realized gain (loss) or paid-in capital as appropriate, in the period that the difference arises.

The permanent differences primarily consist of foreign currency translations, reversal of former PFIC mark to market and distribution reclassification. There are no permanent differences that are credited or charged to Paid-in Capital and Distributable Earnings as of December 31, 2022.

The tax character of dividends and distributions paid during the period ended December 31, 2022, was as follows:

	<u>Ordinary Income</u>	<u>Total</u>
ARGA Emerging Markets Value Fund		
2022	\$ 16,259,011	\$ 16,259,011
2021	2,047,817	2,047,817
ARGA International Value Fund		
2022	110,290	110,290
2021	18,263	18,263

As of December 31, 2022, the components of distributable earnings on a tax basis were as follows:

	<u>ARGA Emerging Markets Value Fund</u>	<u>ARGA International Value Fund</u>
Undistributed Ordinary Income	\$ 4,510,915	\$ 2,281
Capital Loss Carryforwards	(20,961,657)	(107,231)
Unrealized Depreciation	(21,468,694)	(221,818)
Other Temporary Differences	(4)	(3)
Total Accumulated Losses	<u>\$ (37,919,440)</u>	<u>\$ (326,771)</u>

Post October losses represent losses realized on investment transactions from November 1, 2022 through December 31, 2022, that, in accordance with Federal income tax regulations, the Funds may defer and treat as having arisen in the following fiscal year.

For Federal income tax purposes, capital loss carryforwards may be carried forward indefinitely and applied against all future gains. Losses carried forward are as follows:

	<u>Short-Term Loss</u>	<u>Long-Term Loss</u>	<u>Total</u>
ARGA Emerging Markets Value Fund	\$ 18,436,176	\$ 2,525,481	\$ 20,961,657
ARGA International Value Fund	55,454	51,777	107,231

The Federal tax cost and aggregate gross unrealized appreciation and depreciation for investments held by Funds at December 31, 2022, were as follows:

	<u>Federal Tax Cost</u>	<u>Aggregate Gross Unrealized Appreciation</u>	<u>Aggregate Gross Unrealized Depreciation</u>	<u>Net Unrealized Depreciation</u>
ARGA Emerging Markets Value Fund	\$ 423,613,373	\$ 30,238,284	\$ (51,580,711)	\$ (21,342,427)
ARGA International Value Fund	3,253,293	225,291	(447,121)	(221,830)

The book/tax difference on investment cost is primarily related to deferred wash sale losses, mark to market on Forward Contracts and investments in passive foreign investment companies.

8. Concentration of Shareholders:

At December 31, 2022, the percentage of total shares outstanding held by shareholders for each Fund, which are comprised of individual shareholders and omnibus accounts that are held on behalf of various individual shareholders was as follows:

	No. of Shareholders	% Ownership
ARGA Emerging Markets Value Fund, Institutional Shares	2	80%
ARGA International Value Fund, Institutional Shares	2	100%

In the normal course of business, the Funds enter into contracts that provide general indemnifications. The Funds' maximum exposure under these arrangements is dependent on future claims that may be made against the Funds and, therefore, cannot be established; however, based on experience, the risk of loss from such claim is considered remote.

9. Concentration of Risks:

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.

Equity Risk — The risk that stock prices will fall over short or extended periods of time, sometimes rapidly and unpredictably. The value of equity securities will fluctuate in response to factors affecting a particular company, as well as broader market and economic conditions. Broad movements in financial markets may adversely affect the price of the Fund's investments, regardless of how well the companies in which the Fund invests perform. Moreover, in the event of a company's bankruptcy, claims of certain creditors, including bondholders, will have priority over claims of common stock holders such as the Fund.

Market Risk — The prices of and the income generated by the Fund's securities may decline in response to, among other things, investor sentiment, general economic and market conditions, regional or global instability, and currency and interest rate fluctuations. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the

Fund. Market risk may affect a single issuer, an industry, a sector or the equity or bond market as a whole.

Active Management Risk — The Fund is subject to the risk that the Adviser's judgments about the attractiveness, value, or potential appreciation of the Fund's investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to other funds with similar objectives and investment strategies.

Value Style Risk — The Adviser's value investment style may increase the risks of investing in the Fund. If the Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations is inaccurate, the Fund could suffer losses or produce poor performance relative to other funds. In addition, "value stocks" can continue to be undervalued by the market for long periods of time.

Foreign Investment/Emerging Markets Risk — The risk that non-U.S. securities may be subject to additional risks due to, among other things, political, social and economic developments abroad, currency movements, and different legal, regulatory and tax environments. These additional risks may be heightened with respect to emerging market countries because political turmoil and rapid changes in economic conditions are more likely to occur in these countries. In addition, periodic U.S. Government restrictions on investments in issuers from certain foreign countries may require the Fund to sell such investments at inopportune times, which could result in losses to the Fund.

Geographic Focus Risk — To the extent that it focuses its investments in a particular country or geographic region, the Fund may be more susceptible to economic, political, regulatory or other events or conditions affecting issuers and countries within that country or geographic region. As a result, the Fund may be subject to greater price volatility and risk of loss than a fund holding more geographically diverse investments.

Sector Focus Risk — Because the Fund may, from time to time, be more heavily invested in particular sectors, the value of its shares may be especially sensitive to factors and economic risks that specifically affect those sectors. As a result, the Fund's share price may fluctuate more widely than the value of shares of a mutual fund that invests in a broader range of sectors.

Currency Risk — As a result of the Fund's investments in securities or other investments denominated in, and/or receiving revenues in, foreign currencies, the Fund will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, resulting in the dollar value of an investment in the Fund being adversely affected. Currency exchange rates may fluctuate in response to, among other things, changes in interest rates, intervention (or failure to intervene) by U.S. or foreign governments, central banks or supranational entities, or by the imposition of currency controls or other political developments in the United States or abroad.

Liquidity Risk – Certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on Fund management or performance. Liquidity risk may be heightened in the emerging market countries in which the Fund invests, as a result of their markets being less developed.

Depository Receipts Risk – Depository receipts, such as ADRs, GDRs and EDRs, are certificates evidencing ownership of shares of a foreign issuer that are issued by depository banks and generally trade on an established market. Depository receipts are subject to many of the risks associated with investing directly in foreign securities, including, among other things, political, social and economic developments abroad, currency movements and different legal, regulatory and tax environments.

Preferred Stock Risk – Preferred stocks in which the Fund may invest are sensitive to interest rate changes, and are also subject to equity risk, which is the risk that stock prices will fall over short or extended periods of time. The rights of preferred stocks on the distribution of a company's assets in the event of a liquidation are generally subordinate to the rights associated with a company's debt securities.

Private Placements Risk – Investment in privately placed securities may be less liquid than in publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized from these sales could be less than those originally paid by the Fund or less than what may be considered the fair value of such securities. Furthermore, companies whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements that might be applicable if their securities were publicly traded.

Participation Notes Risk – The return on a P-Note is linked to the performance of the issuers of the underlying securities. The performance of P-Notes will not replicate exactly the performance of the issuers that they seek to replicate due to transaction costs and other expenses. P-Notes are subject to counterparty risk since the notes constitute general unsecured contractual obligations of the financial institutions issuing the notes, and the Fund is relying on the creditworthiness of such institutions and has no rights under the notes against the issuers of the underlying securities. In addition, P-Notes are subject to liquidity risk, which is described elsewhere in this section.

REITs Risk – REITs are pooled investment vehicles that own, and usually operate, income-producing real estate. REITs are susceptible to the risks associated with direct ownership of real estate, such as the following: declines in property values; increases in property taxes, operating expenses, interest rates or competition; overbuilding; zoning changes; and losses from casualty or condemnation. REITs typically incur fees that are separate from those of the Fund. Accordingly, the Fund's investments in REITs will result in the layering of expenses such that shareholders will indirectly bear

a proportionate share of the REITs' operating expenses, in addition to paying Fund expenses. REIT operating expenses are not reflected in the fee table and example in this prospectus.

ETFs Risk — ETFs are pooled investment vehicles, such as registered investment companies and grantor trusts, whose shares are listed and traded on U.S. and non-U.S. stock exchanges or otherwise traded in the over-the-counter market. To the extent that the Fund invests in ETFs, the Fund will be subject to substantially the same risks as those associated with the direct ownership of the securities in which the ETF invests, and the value of the Fund's investment will fluctuate in response to the performance of the ETF's holdings. ETFs typically incur fees that are separate from those of the Fund. Accordingly, the Fund's investments in ETFs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the ETFs' operating expenses, in addition to paying Fund expenses.

Stock Connect Investing Risk — Trading through Stock Connect is subject to a number of restrictions that may affect the Fund's investments and returns, including a daily quota that limits the maximum net purchases under Stock Connect each day. In addition, investments made through Stock Connect are subject to relatively untested trading, clearance and settlement procedures. Moreover, A-Shares purchased through Stock Connect generally may only be sold or otherwise transferred through Stock Connect. The Fund's investments in A-Shares purchased through Stock Connect are generally subject to Chinese securities regulations and listing rules. While overseas investors currently are exempt from paying capital gains or value added taxes on income and gains from investments in A-Shares purchased through Stock Connect, these tax rules could be changed, which could result in unexpected tax liabilities for the Fund. Stock Connect operates only on days when both the China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. Therefore, the Fund may be subject to the risk of price fluctuations of A-Shares when Stock Connect is not trading.

New Fund Risk — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

10. Subsequent Events:

The Funds have evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no additional disclosures and/or adjustments were required to the financial statements as of December 31, 2022.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of The Advisors' Inner Circle Fund III and Shareholders of
ARGA Emerging Markets Value Fund and ARGA International Value Fund

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of ARGA Emerging Markets Value Fund and ARGA International Value Fund (collectively referred to as the "Funds"), (two of the series constituting The Advisors' Inner Circle Fund III (the "Trust")), including the schedules of investments, as of December 31, 2022, and the related statements of operations, changes in net assets and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Funds (two of the series constituting The Advisors' Inner Circle Fund III) at December 31, 2022, the results of their operations, changes in net assets and the financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting The Advisors' Inner Circle Fund III	Statements of operations	Statements of changes in net assets	Financial highlights
ARGA Emerging Markets Value Fund ARGA International Value Fund	For the year ended December 31, 2022	For the year ended December 31, 2022 and the period from June 3, 2021 (commencement of operations) through December 31, 2021	For the year ended December 31, 2022 and the period from June 3, 2021 (commencement of operations) through December 31, 2021

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform,

an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2022, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The image shows a handwritten signature in black ink that reads "Ernst & Young LLP". The signature is written in a cursive, flowing style.

We have served as the auditor of one or more ARGA Investment Management, LP investment companies since 2021.

DISCLOSURE OF FUND EXPENSES (Unaudited)

All mutual funds have operating expenses. As a shareholder of a mutual fund, your investment is affected by these ongoing costs, which include (among others) costs for Fund management, administrative services, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns.

Operating expenses such as these are deducted from the mutual fund's gross income and directly reduce your final investment return. These expenses are expressed as a percentage of the mutual fund's average net assets; this percentage is known as the mutual fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from July 1, 2022 to December 31, 2022.

The table on the next page illustrates your Fund's costs in two ways:

- **Actual Fund Return.** This section helps you to estimate the actual expenses after fee waivers that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your ending starting account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

- **Hypothetical 5% Return.** This section helps you compare your Fund's costs with those of other mutual funds. It assumes that the Fund had an annual 5% return before expenses during the year, but that the expense ratio (Column 3) for the period is unchanged. This example is useful in making comparisons because the Securities and Exchange Commission requires all mutual funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expenses Paid During Period" column with those that appear in the same charts in the shareholder reports for other mutual funds.

Note: Because the return is set at 5% for comparison purposes – NOT your Fund's actual return – the account values shown may not apply to your specific investment.

	Beginning Account Value 7/01/22	Ending Account Value 12/31/22	Annualized Expense Ratios	Expenses Paid During Period*
<i>ARGA Emerging Markets Value Fund - Institutional Class Shares</i>				
Actual Fund Return	\$1,000.00	\$1,055.70	0.90%	\$4.66
Hypothetical 5% Return	1,000.00	1,020.67	0.90	4.58
<i>ARGA International Value Fund - Institutional Class Shares</i>				
Actual Fund Return	\$1,000.00	\$1,078.00	0.75%	\$3.93
Hypothetical 5% Return	1,000.00	1,021.42	0.75	3.82

* Expenses are equal to the Fund's annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half period shown).

NOTICE TO SHAREHOLDERS (Unaudited)

For shareholders that do not have a December 31, 2022 tax year end, this notice is for informational purposes only. For shareholders with a December 31, 2022 tax year end, please consult your tax advisor as to the pertinence of this notice. For the fiscal year ended December 31, 2022, the Fund is designating the following items with regard to distributions paid during the year.

Long-Term Capital Gain Distributions	Ordinary Income Distributions	Total Distributions	Qualifying For Corporate Dividend Received Deduction ⁽¹⁾	Qualifying Dividend Income ⁽²⁾	U.S. Government Interest ⁽³⁾	Interest Related Dividends ⁽⁴⁾	Short-Term Capital Gain Dividends ⁽⁵⁾	Foreign Tax Credits ⁽⁶⁾
ARGA Emerging Markets Value Fund								
0.00%	100.00%	100.00%	0.01%	62.57%	0.00%	0.68%	0.00%	9.49%
ARGA International Value Fund								
0.00%	100.00%	100.00%	0.00%	96.07%	0.00%	0.28%	100.00%	4.69%

The Funds intend to pass through foreign tax credit to shareholders. For the fiscal year ended December 31, 2022, the amount of foreign source income and foreign tax credit are as follows:

Fund	Foreign Source Income	Foreign Tax Credit Pass Through
ARGA Emerging Markets Value Fund	\$18,158,378	\$1,704,226
ARGA International Value Fund	114,848	5,424

1. Qualifying dividends represent dividends which qualify for the corporate dividends received deduction and is reflected as a percentage of ordinary income distributions (the total of short term capital gain and net investment income distributions).
2. The percentage in this column represents the amount of "Qualifying Dividend Income" as created by the Jobs and Growth Tax Relief Reconciliation Act of 2003 and is reflected as a percentage of ordinary income distributions (the total of short term capital gain and net investment income distributions). It is the intention of each of the aforementioned funds to designate the maximum amount permitted by law.
3. "U.S. Government Interest" represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of ordinary income. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.
4. The percentage in this column represents the amount of "Interest Related Dividends" and is reflected as a percentage of ordinary income distribution. Interest related dividends are exempt from U.S. withholding tax when paid to foreign investors.
5. The percentage in this column represents the amount of "Short Term Capital Gain Dividends" and is reflected as a percentage of short term capital gain distribution that is exempt from U.S. withholding tax when paid to foreign investors.
6. The percentage in this column represents the amount of "Qualifying Foreign Taxes" as a percentage of ordinary distributions during the fiscal year ended December 31, 2022. Your allocable share of the foreign tax credit will be reported on form 1099-DIV.

The information reported herein may differ from the information and distributions taxable to the shareholder for the calendar year ending December 31, 2022. Complete information will be computed and reported with your 2022 Form 1099-DIV.
